

Product Name :
Astra Scientific Laminar Flow Table

Product Code :
Building0001

Description :

Astra Scientific Laminar Flow Table

Technical Specification :

Designed to simulate ideal fluid flow and give clear visualization of the flow patterns created using water as the working fluid. ■

- Working section and end tanks made of glass reinforced plastic.
- Working section dimensions 650mm x 800mm. Actual viewing area 450mm x 750mm.
- Lower glass plate incorporates 8 sinkholes in circular pattern and viewing gridline.
- A system of pipes, valves and manifolds enables any configuration of sinks and sources to be used.
- Includes dye injection system and adjustable knife edge weir for rapid, accurate adjustment of table flow.
- Comprehensive instruction manual with illustrations.
