

Product Name :
Variable Speed Drive

Product Code :
LABUK-AP12LAB0011

Description :

Variable Speed Drive

Technical Specification :

Rated Input Voltage:

200V - 15% 240V 10%. Three-phase.

Or 380V -15% 480V +10%.three•phase. or

200V-15% 240V+10%, single-phase

(ONLY up to 5.5kW 7.5 HP)

Output Voltage: 0 - Un three-phase

Output Frequency Range:

0 to 1600 Hz up to 37kW (50HP), adjustable

0 to 500 Hz above 37kW (50HP), adjustable

Overload capability (constant torque): 110% or 120% of nominal current for 1 min in every 5 min.

Main Protections: over current, short circuit between phase, short circuit between phase and ground, independent short circuit.

Manufacture in India.

Operation manual provided.
