

Product Name :
Astra PCR Thermal Cyclers

Product Code :
ASTRALAB-SUPPLYA1012

Description :

Astra PCR Thermal Cyclers

Technical Specification :

The temperature rises and falls rapidly, and the heating rate is $\approx 6.1 \text{ }^\circ\text{C} / \text{s}$

The temperature uniformity is $\pm 0.1 \text{ }^\circ\text{C}$

High brightness maintenance free LED light source

With 6 / 4 fluorescence detection channels, fluorescence scanning is fast

10.4 inch full color touch screen

The equipment can run independently without the computer

Store more than 1000 experimental data

It has the function of automatically recovering the experiment when the power is off and calling again, without waiting for PC and software to open.
