Technical Specification :

With Premium HMI software platform, ASEM has been providing valuable visualization systems appreciated for the quantity and quality of the functionalities available and the transversally of the platform, which makes it possible to use the same project both on HMI solutions based on ARM or x86 hardware platforms (also with multicore architecture support), with WinCE or WIN 32/64 Runtimes without any need to modify or change settings in the 'Premium HMI Studio' development tool.

PHMI 5 supports the latest Microsoft® XAML visualization technologies

that enable the design of advanced and modern operator interfaces, typical of latest generation mobile devices.

PHMI 5 supports 16 million colors, manages transparency and color shade effects, supports multitouch gestures which further improve the user experience of HMI projects and provides a rich library of graphic objects particularly accurate from an aesthetic and ergonomic point of view making it possible to design unprecedented user interface screens.
