Product Code : ASTRALAB-SUPPLYA139006

## **Product Name :** Melting Point Apparatus

## **Description :**

Melting Point Apparatus

## **Technical Specification :**

Melting Point Apparatus is usable to estimate the Melting Point of chemicals, Pharmaceuticals, Foods, etc.

This is very useful to determine the melting point of any substance.

Consist of aluminum cylindrical block for heating, Radial holes admits a thermometer and glass capillary.

Temp. controlled by energy regulator.

Regulator fitted to the unit and with high, low heat switch.
