

Product Name :
Pneumatic Trainers

Product Code :
HY - DR5

Description :

Pneumatic Trainers - This integrated hands-on pneumatic training aid introduces students to basic principles of pneumatics and compressed air devices. This unit allows for the connecting of pneumatic circuits to illustrate a wide selection of pneumatic circuits. The associated lab manual and instructor guide take the student step by step through each exercise to create a learning experience that provides a complete and practical introduction to pneumatic technology. Permanently mounted and clearly identified components eliminate lost, misplaced, and damaged components.
