

**Product Name :**  
Basic Electricity Circuit Lab

**Product Code :**  
CIR-LABAST-003

**Description :**

Basic Electricity Circuit Lab, We are manufacturer, supplier, exporter and solution provider in quality Basic Electricity Circuit Lab

**Technical Specification :**

Basic Electricity Circuit Lab is ideal for electrical, mechanical, automotive, science, civil & electronics engineering learning.

All necessary equipments for electric circuit experiments such as power supply, function generator, analog and digital meters are installed on the main unit for the requirement of experiment.

The whole essential important topics of electrical circuit learning are studied by different modules. Basic Electricity Experiments

- Electronic Circuit Experiments
- Digital Logic Experiments
- Motor Experiment (Option) Ideal for students to learn the design of electrical, electronics and digital logic circuits.
- To learn efficiently, power supply, function generator and measurement unit are all included.
- All supply units are secured with overload protection.
- With one main unit, user can choose the needed modules for different learning topics.
