

Product Name :
Concrete Test Hammer Schmidt Hammer N-Type

Product Code :
ASTConcrete-0047

Description :

Concrete Test Hammer Schmidt Hammer N-Type

Technical Specification :

Specification:

The quality of concrete is mainly judged by its compressive strength directly affecting the loadbearing capacity and durability of concrete structures. ZI 2068 concrete test hammer (Schmidt Hammer N type) is used to measure the compressive strength characteristics of hardened concrete non-destructively, control uniform concrete quality and detect weak spots in the concrete. The test object should have a minimum thickness of 100 mm.
