

Product Name :
Astra Scientific Radius Bending Machine

Product Code :
ASTSTEEL-0013

Description :

Astra Scientific Radius Bending Machine

Technical Specification :

Descriptions: U Bending Machine is widely used in various industries of the world. Our "U" Bending Machine is designed to bend 12mm long rebar upto 32mm. It is very hard to bend a rebar to a "U" shape and this process used to be time and labour consuming thus increase the cost. Jaypee's "U" bending machine can now make the process extremely simple making it time and cost effective.

With automatic U bending, economical power consumption and fast bending time, the Jaymac automatic LB 34 and LB 40 U bending equipments gives TMT rebar rolling mills/TMT distributors etc substantial savings in manpower costs with high output possible. Our designed equipment is also extremely easy to operate and has inbuilt safety features for the users of this equipment.

The equipment is manufactured to the highest quality standards at our state of the art manufacturing plant at Kolkata with a guaranteed very long operating life.

Technical Specifications:

"U" Bending Capacity	"U" Bending Length	Motor	Hydraulic System	Dimension
12 x 12 mm Max. 28 mm	12/2 Fixed	5 HP (3.7 KW)	Full Hydraulic	4540 x 1690 x 950
12 x 12 mm Max. 32mm	12/2 Fixed	7.5 HP (5.5 KW)	Full Hydraulic	4540 x 1690 x 950
