

Product Name : DC TIG Welding Machines	Product Code : AST-WED0004
--	--------------------------------------

Description :
DC TIG Welding Machines
Technical Specification :
DC TIG Welding Machines deliver high quality, surety and conformity to give you every reason to smile and showoff. The exactitude of quality standard IS: 1851 lies in its world class designing and engineering that took 3 years for our engineers to master. The result, a high. performance innovation that saves you more, earns you more and lets you enjoy all the more.
High Speed & Energy Saving:
For Welding of Ferrous and Non Ferrous Metals
Low Corrosion and Heat Creep
Superior quality welds

Precise control of welding variables (heat)

Free of spatter and Low distortion

Welds can be made with or without filler metal
