

Product Name : DC Welding Rectifiers	Product Code : AST-WED0008
--	--------------------------------------

Description :
DC Welding Rectifiers
Technical Specification :
DC Welding Rectifiers is designed by TTF technology, Welding Rectifiers are appreciated trouble free performance and non-corrosive frames. These energy efficient equipment are suitable to weld ferrous as well as non-ferrous, metals.

Offered at most competitive price, this equipment is an ideal source for GTAW (TIG/TAG) welding and are extensively used in railways and cement, military & aviation industries.
