

**Product Name :**  
Human Disarticulated Skeleton Model

**Product Code :**  
ANATOMYSUK-AS06LAB005B

**Description :**

Human Disarticulated Skeleton Model

**Technical Specification :**

This life size model shows the complete human skeleton with separated bones: skull, axial section, hyoid bone, ribs, sternum with rib cartilage, upper and lower limbs, sacrum and coccyx are represented in high detail. The skull can be disassembled into 3 parts: skullcap, base of skull and mandible.

- This disarticulated skeleton will encourage students to learn the various bones of an adult human.
- Made of PVC plastic.
- Unbreakable.

- Removable arms and legs.
- Ideal for teaching the basics of human anatomy.
