

Product Name :
Bone Structure

Product Code :
ANATOMYSUK-AS06LAB002F

Description :

Bone Structure

Technical Specification :

This shows various planes in cross and longitudinal section through all levels of the bone as well as a two plane section through the inner structure of the bone marrow. Model showing a three-dimensional section of lamellar bone, shows a typical structure of a tubular bone enlarged 80 times. The typical elements of a lamellar bone are easily identified and helps to understand its structure and functions with its characteristic osteons also known as Haversian Systems. The model illustrates the interplay of the individual components such as spongy and compact substance, endosteum, cortical substance, osteocytes, Volkmann and Haversian canals.
