

Product Name :
Laboratory Blender

Product Code :
PHARMACEUTICAL SUK-
AS03LAB032A

Description :

Laboratory Blender

Technical Specification :

The container is stainless steel with stainless steel blades and a stainless steel clamp-on lid with rubber gasket and stopper. Laboratory blender features a sealed, precision ball bearing system for a long service life. 3.75 HP motor offers 3 speeds plus pulse. High speed is 20,800 rpm, medium is 18,000 rpm and low is 15,800 rpm. The deeper, wider, full-traction rubber, non-skid feet keep the unit stable. Electrical rating is 120VAC, 50/60 Hz. A 240-volt model is available.

Features:-

Easy-to-clean electronic membrane panel

Two handles for safer, easier lifting, pouring and carrying

Removable dishwasher-safe jar pad
