

Product Name :
IRHD Hardness Tester

Product Code :
RUBBER SUK-AS03LAB011

Description :

IRHD Hardness Tester

Technical Specification :

We are one of the distinguished manufacturers, exporters and suppliers of a sturdy range of IRHA Hardness Tester

which is known for its accuracy, high functionality and efficiency. We manufacture these testing equipments using supreme quality of materials and components. These testing equipments are highly demanded among our clients for offering accurate results during the testing. Our offered IRHA Hardness Tester is widely used in various industries to measures the hardness of various metallic material & components.

Further details:

We offer superior quality IRHA hardness testers, which cater to the testing needs of various industries. These IRHA hardness testers are manufactured from high grade raw material, which improves their

functionality and efficiency. These IRHA hardness testers are known amidst clients for offering accurate results.

Technical specification
