

Product Name :
Electrical Power Systems Laboratory

Product Code :
ASTRALAB-SUPPLYA79001

Description :

Electrical Power Systems Laboratory

Technical Specification :

Thyristor And Diode Converters
Transformer Trainer
Electrical Machines & Drives Program
Salient Pole Generator
Portable Capacitive Load Bank
Distribution Trainer
Electricity & Electronics
Transmission Line Simulator
Portable Resistive Load Bank
Current And Voltage Transformers
Power System Simulator
Power Transmission And Distribution
Power Factor Load Bank
Circuit Breaker Trainer
Variable Three Phase Power Supply
Brake control unit

Three Phase Voltage Transformer

Electrical Power Systems

Second Generator For Power System Trainer
