

Product Name :
Sand mould and core making equipment

Product Code :
ASACU9

Description :

Sand mould and core making equipment 1. Steady blowing air-pressure can be adjustable, mold cavity can be fully stuffed.

2. Heating plate offers heat sufficiently, the quality of the sand core can be ensured.

3. Adjustable loading mold plate, avoiding wrong molds and air leakage.

4. Steady push-out, reducing push-out damage rate.

5. Hommization press button design, convenient and easy operation.

Max Weight of Sand Core 3.2 kg

Max Mold Dimension 350*250*160 mm

Heating Plate Dimension 350*200 mm

Heating Power 6.5 kw

Max Loose Core Stroke 125 mm

Shooting-sand Head Stroke ?30 mm

Opening Stroke ?200 mm

Shooting-sand Air-pressure 6-8 bar
