

Product Name : Concrete Test Hammer Schmidt Hammer N-Type	Product Code : ASTConcrete-0047
---	---

Description :
Concrete Test Hammer Schmidt Hammer N-Type
Technical Specification :
<p>Specification:</p> <p>The quality of concrete is mainly judged by its compressive strength directly affecting the loadbearing capacity and durability of concrete structures. ZI 2068 concrete test hammer (Schmidt Hammer N type) is used to measure the compressive strength characteristics of hardened concrete non-destructively, control uniform concrete quality and detect weak spots in the concrete. The test object should have a minimum thickness of 100 mm.</p>
